

The Life and Care
of an **Idea**

WEEK 5 (November 2nd, 2025)

OPENING PRAYER

Written by: Smokie Stuver

Let's take this moment and connect with the truth of our being. We acknowledge that there is one Presence and one Power and we are a part of that Presence and Power. As expressions of God's presence, we have the inherent spiritual attribute of Power.

As Divine humans, we have the power of conscious thought, the power to choose the loving word, and the power to be a loving force in the world.

In essence we are the power of God in action. With our words, we have the power to create. We can choose to use this power for good or for ill. As expressions of God's presence let us be mindful.

Gratitude is given to the Divine Spirit for the incredible gift of Power and the opportunity to use this Power to bless lives and advance good in the world.

Amen.

MEDITATION

Written by: James Van Hala

I invite you to get comfortable. Close your eyes. Center your attention on your heart. Take a deep cleansing breath and exhale slowly. God's love surrounds you now bringing a deep sense of peace. Indeed it is God that is the Source of your every breath. So let us take another deep breath, feeling an even deeper sense of peace while we exhale slowly. Make the following words your words. I am one with God and all life. Joy, peace, love and happiness abound in me and through me. There is no time , no place, no state where God is absent.

In the creation story on the 5th day God creates the sea creatures including fish. and all the birds that may fly above the Earth. The creation of the fish signi-fies God's power to create life and provision for the earth. Greek and Roman pagans used the design of the fish to symbolize feminine fertility and deity. They created the fish symbol by

interweaving two crescent moons, which is the heav-enly body associated with goddesses.. In the early first century the fish became a Christian symbol. Using the Greek word for fish, Ichty's to symbolize Jesus Christ.

Let us consider for a moment the question, what is creation? Creation is the sum of all God's Thoughts, in infinite number, everywhere without limit. Only Love creates, and only like Itself. God's Thoughts are given all the power that their own Creator has. As a Holy Son or Daughter of God your Source, All That is, you are given all the power the Father has. You have not left your Source. Being one with all that is, you are also given the power to share in creation by extending Love.

I have but one purpose in this life, to return my mind to Source and realize I have never left the Mind of God my Creator. The Son of God is my identity. This is the Holy Christ light, your true home. Your safety lies in truth. Love is your safety, Fear does not exist. Identify with Love and you are safe and you are home. Identify with Love and find yourself.

There are many that are declaring that they are the son of God and they have all the Father has. While the statement is true, it is not made fact until they have the courage to take the next step and see themselves as God. One with all that God is, then they do accomplish and become the Christ of God.

Let us take a few moments in the silence to return our hearts and minds back to God our Source.

As we return to this room, center your attention on your heart again. Each heartbeat brings me peace , each breath infuses me with strength, I am a mes-senger of God, directed by his voice, sustained by Him in Love, and held forever quiet and at peace within His loving arms.. Each heartbeat calls His Name and is answered by his voice, assuring me I am at home with Source.

And so it is, Amen, Amen and Amen.

CLOSING PRAYER

Written by: Smokie Stuver

Let's take this moment and connect with the truth of our being. We acknowledge that there is one Presence and one power and we are a part of that Presence and Power. A part of us is the spiritual attribute of Power. We are a channel for Divine Power.

As Charles Filmore said "The mind and the body of man have the power of transforming energy from one plane of consciousness to another. This is the power and dominion implanted in man from the beginning." (The Twelve Powers of Man, page 63.)

With this power we are in control and responsible for our thoughts, words and deeds. Let us choose to use our mind, our voice, our words for good.

Gratitude is given to the Divine Spirit for the incredible gift of Power and the opportunity to use this Power to bless lives and advance good in the world.

Amen
